Royal, Nebraska, Feb. 11, 1937.
 Gentlemen—In response to your
 letter of February 6, 1937, I will
 say that I issue no catalog,
 but on the back of this card
 will give the names of the
 principal local plants whose
 seeds I may collect upon order
 in 1937 or have on hand now.
 Seeds are as represented, but
 never guaranteed as to viability
 or in any other way. Old seeds
 are apt to be no longer viable
 and are sold for herbarium
 or laboratory use only. The year
 gives the year of growth. Prices
 are not apt to change, but may
 change. Small denominations
 U. S. postage stamps will be
 taken to any amount the same as
 cash. A. D. 1937 seeds are to be
 gathered, the other seeds I have
 on hand now at the price cover

From J. B. E. Vernecke, botanical collector, Royal,
 Neb.
